Third-party suppliers providing outsourced transportation and logistics services are held to environmental protection measures in the Supplier Code of Conduct, as well as appropriate governance principles.

6. Social

At the centre of all we do is our people. We are committed to caring for our employees, partners and local communities through strategic initiatives whilst adhering to the UN Universal Declaration of Human Rights and the internationally recognized labour rights.

We focus our work on 4 strategic pillars:

Pillar 1 – Health, Wellbeing and Safety

The health, wellbeing and safety of our employees and partners always takes priority and we continuously work on improving all three parameters with a variety of initiatives.

We conduct yearly engagement surveys which allow us to see how we are doing, follow the impact of our initiatives and to know where we need to take action to improve further. The next two years, we will focus on initiatives that lead to reducing stress-related absence through prevention and enhancing our capabilities within stress management. We will also continue working locally on action plans to prevent accidents. We believe that the variety of initiatives are pivotal for our work with Health, Wellbeing and Safety.

Pillar 2 – Learning and Quality Education

Learning and quality education is key to staying ahead of the curve – both as an individual and as a company. Learning is a core company value, and it is our goal to ensure equal access to learning and development opportunities for all our employees regardless of function or role. We invest in both internal and external training as well as supporting learning in the local community through our DANX Carousel Foundation (see pillar 3).

Pillar 3 – Community Engagement

We want to make a positive difference in our local communities through engagement and inclusion. To make an actual impact, we have established the DANX Carousel foundation. The purpose of the DANX Carousel Foundation is to promote the positive social impact of DANX Carousel both in our business and the near communities. DANX Carousel Foundation supports various forms of learning and education for our own employees as well as talents connected through near family, partners, or the broader industry of logistics. We also support and care for local charities through the Foundation and enable our employees to engage directly with charitable causes through donating two workdays per year.

Pillar 4 – Diversity, Equity and inclusion

Diversity, Equity and Inclusion (DEI) are more than just an ethical responsibility. It is part of being a caring company, and simply delivers better business results. Our focus on DEI is based on our strong belief that a diverse workforce that provides an environment which is inclusive and provides equal opportunities are fundamental to being an attractive workplace. Diversity is about much more than gender equality – that is however where our current focus will be. We are aligned with Goals 5 and 8 of the UN Sustainable Development Goals (SDGs) and are making Gender Equality a key part of our strategy moving forwards. Goals have been agreed upon which are outlined in our Social Strategy up until 2027.

7. Governance, Safeguarding and responsible business conduct

The Group has zero-tolerance against any form of corrupt, fraudulent behaviour or human rights violations.

Based on Governance requirements and sustainability commitments The Group, continually checks and audits the controls and quality of its Governance, Health & Safety, procedures and standards throughout the businesses stakeholders, functions and systems. Ensuring that the commitments, spirit and requirements of its mandatory, regulatory and legal obligations are met.

Upheld by The Board of Directors, who are committed to the regular and continual review and assessment of governance and material risks under the Corporate Sustainability Reporting Directive (CSRD) to ensure that they have visibility across all areas of the business; and where and when required; apply strategic treatment of these risks to ensure the Group remains compliant both in its ESG and CSRD programs through which it conducts itself with integrity throughout its businesses.
